The Northwestern Institute on Complex Systems is offering students a chance to present their work at the conference. (For relevant topics, please view the NICO web site.) A two-page abstract (in pdf format) should be submitted via e-mail by March 9, 2007 to complexity-conference@northwestern.edu. Abstracts chosen by a selection committee will be asked to give a brief presentation. Nine finalists will be chosen: six will be invited to display posters at the conference and will be awarded \$100; the top three submissions will be invited to present their work orally and will receive \$300.
